

Welcome to Singapore

Departure
Arrival

NEW

BioScreen

To enhance the level of security at our checkpoints, the Immigration & Checkpoints Authority (ICA) will be introducing a new BioScreen system to capture the thumbprints of visitors arriving at and departing from our checkpoints

START

BioScreen will be progressively introduced at the passenger halls of the sea, land and air checkpoints from 20 April 2016

HOW WILL TRAVELLERS BE AFFECTED?

Automated clearance users will not be affected

MANUAL CLEARANCE

Travellers will be required to provide thumbprints at both arrival and departure

Immigration clearance process may take slightly longer

Immigration & Checkpoints Authority

Biometric Identification and Clearance Process

1

**Present your
passport**

2

**Place both thumbs
on scanner**

3

**Remove thumbs
when asked**
